Election/Restrictions

1. Applicant's election without traverse of Invention II, represented by claims 6-8, 11-13, 15-19, and 20-22 in the reply filed on 10/13/2006 is acknowledged.

Claim Objections

2. In regards to claim 1, line 6, it is suggested that "within" be replaced by – to – in order to properly reflect the claimed distributing function.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 6, 13, and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Gottlieb et al. 6,283,304.

Gottlieb et al. '304 disclose method of filling containers per claimed invention.

The method comprises assigning filling variables associated with at least one container and a number of drop points. The method comprises determining at least total thickness of all mail pieces or thickness of each mail piece and an order of drop. The method comprises determining a best estimate of a number of containers needed if a level of fill varies between a maximum and minimum fill value of the at least one container.

Allowable Subject Matter

5. Claims 7, 8, 11, and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. Claims 15-18 and 20-22 are allowable over the prior art of record.
